| Spay / Declaw | \$622 | \$468 | \$154 |

Ex: Your new Kitten is a female, her 1st vaccine is at 6 weeks of age, & you want her spayed.

1. Your total cost (without package) for her 6, 9, 12, and 16 week visits would normally be \$549.
2. By purchasing the package your cost is \$411.
3. So you save \$138.

Remember ...

For surgeries, we recommend pre-surgical blood work (decreases risk of anesthesia) and using the RSM / laser (less blood loss, faster healing). If you choose those services for your Kitten, we will add them to the package at 25% off.

We do also offer microchipping at a 25% discount.

**Payment can be at the time of purchase, or we can set up a monthly payment plan through ACH withdrawal for up to 6 months. There is a \$35 enrollment fee for this option that is due at the time of purchase, along with first month's payment*

Package prices expire 6 months after purchase
